What share size is best for me?
We recommend full shares for families of three people or more. We recommend small shares for couples or individuals who eat a lot of veggies.

When will the CSA start?
We will announce our start date by Monday, June 1st

How much food do you get?
Full shareholders can expect to take home 8-12 items each week; small shares provide 6-9 items each week.

Depending on the veggie in question (and the point in the season), an 'item' might be defined as:
- A pint or quart of cherry tomatoes, snap peas, or strawberries
- A generous ¾#-1# bunch of greens
- 1-2 pounds of eggplants, cukes, slicing tomatoes, peppers, onions, etc.
- A head of cabbage or lettuce
- A 1/2# bag of salad mix
- One melon

The “what we’re growing” chart will give you a sense of what we grow for the CSA and the approximate timeframe when each crop is available.

How much fruit is included with the share?
Our CSA in general is 95-98% veggies and the remainder in fruit (strawberries, watermelon, cantaloupe).

What happens on weeks when I’m away?
Please find someone to pick up your share for you. You don’t need to tell us in advance - a friend can come & pick up the food directly from our walk-in cooler.

Is there a deadline for signing up?
We will continue to sell shares for as long as they are available. Last year we sold out in early June.
